Industrial

Urban meets warehouse elements. Masculine and minimal. Uses raw woods, steel, and neutral tones. A clever use of parts and innovation in design.

Mid-Century Modern

50's and 60's style for a clean, retro, Danish inspired feel. Simple, straight forward silhouettes, subtle fabrication and often low profile.

Organic

Urban

Designed for the look of a cosmopolitan or elevated city life. Marries contemporary, modern and industrial influences for a timeless approach to design.

Minimalist

A modern look but with warmth using woods and warmer surface materials instead of steel and glass. No fuss, clean elegance. Simple, refined, functional.
